

HARISH GOVIND JOSHI

Male • Indian • DOB: 11.02.1993 • POB: Ranavav, Gujarat

Email: joshi.harish91@gmail.com • Mobile Number: +49-17668460808 • LinkedIn: [Harish Joshi](#)

Current Address

Riesenfeldstraße 59
80809, Munich
Germany

Home Address

Oppo. Aaram Gruh, Near Maher Samaj
360550, Ranavav
Gujarat, India

PROFILE SUMMARY

Aspirant engineer with 5 years of experience and interested to work in cutting edge emerging technologies area such as Software Engineering, DevOps and Embedded Systems with academic background in Mechatronics, Power Transmission and Mechanical.

SKILLS SUMMARY

- Programming: Python, C/C++, Shell Scripting, Groovy, IEC 61131-3
- DevOps Tools: Tortoise SVN, Git/Github, Jenkins, CI/CD, Docker, Kubernetes
- Project Tools: Agile-Scrum Methodology, Jira, Confluence, MS- Office
- IDEs: PyCharm, IntelliJ IDEA, Arduino
- BMW Tools: Creta, CalibSDV, Esys, SWE
- Tools: MATLAB/Simulink, LabVIEW, CodeSYS, Siemens S7-1200
- Operating System: Windows, Linux

WORK EXPERIENCE

Engineer | L & T Technology Services, Munich Germany

Oct 2021 - Present

Project: Data Manager for BMW Gen5 ECUs

- **Achievement:** Responsible for more than 50 vehicle variants, importing over 100 software versions per year, and contributing to project revenue of approximately €500,000
- Managing data management tasks and deliveries for Gen5 ECUs such as CCUs (Combined Charging Unit) and TEE (Traction Electronic E-machine) projects in Creta
- Integration of ECU software from SVN repository to CRETA till building final flashing container (.pdx) through Jenkins for production deployment in vehicles
- Communicating with BMW spokesperson regarding dataset release status and participating in daily project meetings, I-Step level releases, and Variant Management discussions
- Performing software quality checks for anomalies in artifacts (.s19, .a2l, SW Compare Report, .ehb, .xml, .arxml)
- Supporting calibration engineers with changes before level release deadline (DET) and maintaining Creta Database for smooth and clean releases
- Organizing, conducting and evaluating D-CCB (Challenge Control Board) meeting for delta level release testing with LaLa (LadeLabor), Test Coordinator, KSV, and SSV stakeholders

- Handling documentation and maintaining Confluence pages Logging efforts and updating JIRA for performed tasks. Building team capabilities and providing technical assistance to team members

Working Student | Hofer Powertrain, Munich Germany

Feb 2019 - Feb 2020

Master Thesis: Synchronization of Electro-Generative and Mechanical brakes in motor Vehicles

- Developed a regenerative braking mechanism, an algorithm, and an electronic circuit integrated with brake Pedal for electric motorcycles
- Developed a MATLAB/Simulink-based model for a regenerative braking system algorithm based on battery state of charge (SOC) and temperature of electric motor

Internship Project: Feasibility study for building a 48V electric drive with lithium-ion battery cells for electric motorcycles

- Selection of suitable electric motors based on functionality and efficiency. And comparing of battery cell models for criteria of cell capacity, charge/discharge current, price, and weight
- Proposed specifications for a charger for lithium-ion batteries (Level 1 charging from household sockets)

EDUCATION

Rhine-Waal University of Applied Sciences Kleve, Germany

Sep 2015- Feb 2020

Master of Sciences (M.Sc.) in Mechatronics & Power Transmission

L. J. Institute of Engineering and Technology Ahmedabad, India

Jun 2010 - Dec 2014

Bachelor of Engineering (B.E.) in Mechanical

PROJECTS

- Conducted performance analysis of drivetrain systems for Caterpillar D7E and John Deere 850 dozers, focusing on traction and powertrain efficiency
- Building Jenkins pipeline with Python script to analyze different countries indices (i.e. Nifty50, SP500, Nasdaq, Chn50) yearly return per decade in a graphical jpeg file

ACCOMPLISHMENTS

- Contributed to L&T processes including RFQ and monthly PSR reporting
- Set up of LTTS-developed Digital Cockpit Unit with steering and brake systems to showcase at CARIAD Tech Day in Ingolstadt

CERTIFICATES AND COURSES

- English: Business in English, Powerful Presentations in English
- German: B2 - (at L.A.N.E.S in Düsseldorf), (B1- Telc Exam), Einbürgerung Test
- German Grammar Courses (A2, B1 & B2) - Deutsche Akademie, Munich
- Udemy: CAN (Controller Area Network), Siemens S7-100 PLC
